

**A Whole  
Different Kind  
of Architecture  
Firm For...**

...Interiors

“My **passion** for **interiors** stems from the realization that when most people experience a **building**, it is the **interiors** they **remember**. No matter the project, the **exterior** and **interior** need to be **seamless**. Well-designed interiors **engage** people’s **senses** and **emotions** and can **influence** behaviors. There’s **nothing more rewarding** than seeing people’s **reactions** to the **end result**.”

*Ed Dumont, IIDA  
Partner, Studio RED Architects*

*New Regional Planning*

*New Regional Planning*

“They’re one of the most **creative** firms around—just look at the finished product. They **really listen** to the customer and when issues come up, as they invariably do, they are **there to problem solve**. Probably most important is that I just **enjoy working with them**.”

*Blake Tartt III  
New Regional Planning*

*Water Standard Company*

*Baylor College of Medicine Dining Facility*

“They think **out of the box**,  
they act **fast** and have a **sense**  
**of urgency**. They gave us a  
different look **on budget** and on  
a **tight time schedule**.”

*Bob McCleskey*

"I've built or redeveloped close to 11 million square feet in my career and I can say **there's none better** for interiors. They're **great** at **design**, **service**, and most important, **follow through**. You work with the principals and the **quality** of their **ideas** is **superb**."

*Lenny Friedman*  
Kenny & Ziggy's

*Lakewood Church*
